Mr. Mike Dodd,

Restriction on use of: lead, mercury, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants, at levels of greater than 0.1%; cadmium, at levels greater than 0.01%; and Pentabromodiphenylether, Octabromodiphenylether, and Decabromodiphenyl oxide, in concentrations higher than 0.1%; and HBCDD, DEHP, BBP, DBP, and DEHP in concentrations greater than 0.1%.

This correspondence is in response to your request for information regarding EC Directive Restricted Substances on the PolyOne Corporation products identified above. The following statements are in support of your request.

Based on the information provided to PolyOne by its raw material suppliers and our formulation reviews, we have found that the PolyOne products identified above do not intentionally contain RoHS/WEEE substances above listed concentrations and would therefore be in compliance with the European RoHS/WEEE regulation. Please note that we do not routinely test for these materials. We certify that we do not intentionally add or use these materials in the manufacture or handling of these products at or above restricted concentrations.

If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us. Please contact your PolyOne Sales Representative should you need additional product support.

Respectfully yours,

PurePak Technology Corporation

**Polyvinyl Chloride Certification**

**PolyOne Product Numbers and Descriptions:**

**CC00018560WE - ACC10382E BLACK 801-0240**

**CC00006659WE - 10074118 NEW SHEPLON BROWN**

Mr. Mike Dodd,

This correspondence is in response to your request for information regarding the potential use of Polyvinyl Chloride (also known as PVC) within the PolyOne Corporation products identified above. Based on the information provided to PolyOne by its raw material suppliers and our formulation review, we have found that these PolyOne products do not intentionally contain any PVC materials. Please note that we do not routinely test for PVC. We certify that we do not intentionally add or use PVC in the manufacture or handling of the above products.

Should you require assistance with this matter or desire any additional information concerning these or other PolyOne products, please feel free to contact us at your convenience. The information submitted is valid as of the date of this letter. PolyOne makes no representations or warranties as to the accuracy of the information contained or referenced herein as of any other date. PolyOne will respond to requests for updated information as appropriate.

Respectfully yours,

A handwritten signature in blue ink, appearing to read "Geoffrey M. Weyburne".
